

Wall Adapter Power Supply - 5.1V DC 2.5A (USB Micro-B)

Brand: BuyaPi.ca

Model: 1260

Micro-USB Power Supply - 5.1V 2.5A - UL Listed - For Raspberry Pi 3B/3B+/2/1 and Zero, Zero W & Zero WH boards

This is a high quality switching “wall wart” AC to DC 5.1V 2.5A USB Micro-B wall power supply manufactured specifically for projects that require a higher level of power. This compact USB AC charger is UL listed and incorporates a highly regulated output switching power design to assure a constant, accurate DC power delivery.

These wall adapters are perfect for supplying power to the Raspberry Pi 3 – Model B and B+ power requirements. Each adapter features a no-load voltage regulation within 3% of the rated output and works with 100-240VAC inputs.

COMPATIBILITY

- Raspberry Pi 1, 2, 3B & 3B+
- Raspberry Pi Zero, Zero W & Zero WH

SPECIFICATIONS

- Input voltage: 100~240VAC
- Load regulation +/- 3%
- Output voltage/capacity: 5.1V; 2.5A
- Cord length: 1.5 meter (5' approximately)
- Cord connector: Micro-B USB type
- Safety Certifications: CE, FCC, and UL
